

3M Health Care Academy

3M™ Philippines Food Safety
in coordination with the

Department of Science and Technology Central Visayas Region
cordially invites you to the

Food Safety Learning Time (Webinar):

***Cleaning Validation & Verification –
Environmental Monitoring: An Integrated Approach***

Safe food is food free from hazards. In achieving this, one vital component is effective cleaning and sanitation of the processing environment. It is also imperative that tools for environmental monitoring are used. 3M Food Safety and DOST Region VII offer this FREE webinar to microbiology analysts/supervisors, sanitation officers/hygienists, and plant managers to provide knowledge on environmental monitoring.

To register, send your request to Mary Grace Verillo at grace@grb.com.ph no later than May 27 (Wednesday). Please include the following information: (1) Complete name, (2) Affiliation, (3) Position, (4) Email address, (5) Contact number, and (6) Number and names of participants who will join you during the webinar. Only those with complete information will be entertained.

After you receive the invite, be sure to download the Microsoft Teams Meeting app in your phone or computer before the webinar. A certificate will be provided after the webinar.

We are looking forward to your participation!

1 June 2020 (Monday)

9:00 am – 10:30 am
